PROFESSIONAL SUMMARY

Software developer with a B.Tech in Computer Science and hands-on experience building and shipping end-to-end web applications. A curious, fast learner seeking a junior software engineering role building reliable backend systems.

PROFESSIONAL EXPERIENCE

Software Developer Intern **Dec 2025 – May 2026**

Nagpur Heights

- Developed **BigTopSocial's official website from the ground up**, working across frontend, backend, APIs, database integration, lead generation, SEO, performance optimization, and deployment.
- Maintained and supported **BigTopSocial and Nagpur Heights** websites, handling updates, troubleshooting, domain/DNS configuration, and deployment-related tasks.
- Contributed to an **e-commerce client project** as part of a development team, implementing JWT authentication, REST APIs, admin functionality, Razorpay integration, and SEO using Next.js, Tailwind CSS, and Node.js.
- Independently developed a **real-estate website** using Next.js, including SEO implementation, to showcase the client's completed and upcoming projects.

PROJECTS

P2P Controls Engine GitHub *TypeScript | Node.js 22 | PostgreSQL | Prisma | Express.js | Next.js*

- Built a configurable **procure-to-pay controls engine** that ingests structured business data and flags control exceptions through reusable rule definitions.
- Implemented a YAML-driven rule engine with typed evaluators for validation, duplicate detection, cross-dataset comparisons, date rules, windowed aggregation, and fuzzy matching.

BigTopSocial — Official Website bigtopsocial.com *Next.js | React | TypeScript | Tailwind CSS | Node.js*

- Developed an end-to-end web presence for a social media marketing agency to showcase services and work, generate leads, and improve organic visibility through SEO.
- Implemented APIs, database integration, contact/lead forms, AI chatbot, responsive UI, Cloudinary media handling, SEO, performance optimization, and deployment using Cloudflare and Vercel.

API Testing CLI Tool npm: shobhit-testapi-cli *Node.js | Express.js | Axios | MongoDB | Mongoose | Docker*

- Built an interactive CLI tool for testing HTTP APIs directly from the terminal, supporting GET, POST, PUT, PATCH, and DELETE requests.
- Added request history and an interactive workflow as a practical project for exploring HTTP/HTTPS, API testing, and backend fundamentals.

TECHNICAL SKILLS

Programming: C++, JavaScript, TypeScript, Go | **Frontend:** React, Next.js, Tailwind CSS, Responsive UI, SEO, Performance Optimization | **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, API Design & Debugging | **Databases:** PostgreSQL, MongoDB, Mongoose, Prisma, MySQL, SQLite, Redis | **DevOps & Tools:** Docker, Docker Compose, GitHub Actions, Vercel, Cloudflare, DNS / Domain Management, Git, GitHub, GitLab, Postman, VS Code | **Architecture:** System Design, Component Design, Data Modelling, API Design

KEY COMPETENCIES

Problem Solving: Break ambiguous requirements into testable units; reproduce a failure before fixing it.

Critical Thinking: Root cause analysis over symptom patching; weighing speed against maintainability.

AI-Assisted Engineering: Use AI as a harness – specify intent, review every generated change, verify behaviour.

AI Toolchain: Cursor, Claude Code, Antigravity, Obsidian; prompt engineering, loop prompting, agentic workflows.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science **May 2026**

G.H. Raisoni University, Amravati, India | CGPA: 7.56 / 10

CERTIFICATIONS & ADDITIONAL INFORMATION

AWS Cloud Computing Workshop, Indian Institute of Technology (IIT) Bombay Verify on Credly **December 2024**

Cloud infrastructure fundamentals, deployment models, and core AWS services.

Languages: Hindi, English | **Location:** Bangalore, India (open to relocation)
